**Oakland**International is the most centrally located airport in the Bay Area, the fifth largest metropolitan area in the United States.

## Travel Tips

✓ Do not pack wrapped gifts in your luggage. If possible, ship your gifts in advance to your destination.

✓ Routine pickup and drop-off of passengers is permitted at the terminal, but unattended vehicles that are left at curbside will be towed away immediately.

✓ Only ticketed passengers are allowed beyond security checkpoints.

✓ No sharp objects of any kind—pocket knives, scissors, carpet cutters, folding or retractable blades—are permitted beyond the checkpoints.

✓ Photo identification is required at multiple locations.

✓ Additional uniformed law enforcement officers are patrolling the airport for your safety.

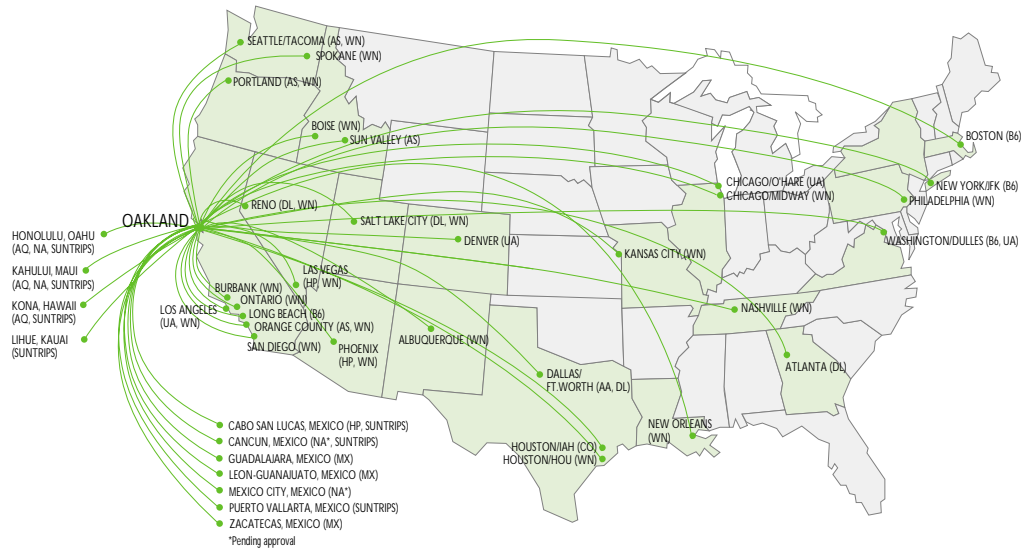

✓ Passengers are strongly urged to closely control their own baggage and packages to avoid potentially transporting items without their knowledge.

✓ Unattended or suspicious bags are subject to inspection.

✓ There is zero tolerance for any kind of threat or suspicious activity, whether intended or meant in jest. Please: No arguments, and no jokes.

✓ Arrive at the airport at least 90 minutes prior to scheduled departures for domestic flights, and at least 2-3 hours prior to scheduled departure for international flights—or as directed by your airline.

✓ While individual airlines control the size and amount of luggage, carry-on and otherwise, less is better. If passengers and those who accompany them can plan in advance for all these factors, everyone will benefit.

## **North American Airlines Schedules Flights to Hawaii**

Get your sunscreen! Non-stop low fare scheduled air service to Maui and Honolulu from OAK begins November 4, 2004, by North American Airlines (NAA).

The airline operates modern B757-200 ER aircraft with leather seats, video movies and full service meals. Introductory fares from \$99 one-way will kick-off the new air service.

NAA, a financially successful airline for the last 15 years, has been flying to the Hawaiian Islands for the past three years from OAK with a national tour operator. Now offered directly to the public, NAA's scheduled service will allow more transportation options for all Bay Area residents. The aircraft can be recognized by the giant American flag painted on the vertical tail.

Pending approval, NAA also plans to operate scheduled nonstop service between OAK and international markets including Mexico City and Cancun. North American has also applied for authority to operate direct flights from OAK to Shanghai and Guangzhou beginning in 2005. For more information please visit [northamericanair.com](http://northamericanair.com) or call 800.359.6222.

## **America West is Beach Bound**

## Customer Service

**Find A Flight-FAST.** Finding the status of an arriving or departing flight is now quicker and easier with OAK's new on-line flight information display system. Visit [oaklandairport.com](http://oaklandairport.com) to view real-time flight status.

**Auto Zone.** OAK's **Park & Call Zone** allows meeters and greeters who can connect to their passenger by cell phone to wait for up to 30 minutes FREE. Drivers must remain with their vehicles at all times. It is just a short walk across the terminal roadway for passengers once they exit the terminals. To access this area, remain in the far left lane as you approach Terminal 1 and look for signs that direct you to the Park & Call Zone.

**Pay On-Board.** OAK's popular AirBART bus link to the Bay Area Rapid Transit (BART) system now accepts exact fare payment on-board. Riders can still purchase tickets with cash or credit card from ticket dispensers located by the visitor information booths inside the terminals or at the second curb near the AirBART shuttle stops. One-way fares are \$2 per adult and \$.50 for seniors, disabled and children ages 11 and under.

**Speak Up.** Customer care cards are now available in 26 locations throughout OAK's two terminals. To date, 300 care cards have been returned with a variety of suggestions. Customers can also give suggestions and feedback by calling 510.563.2814 or by email to [oakmarketing@portoakland.com](mailto:oakmarketing@portoakland.com)

**Gifts To Go.** A new gift kiosk is now open in Terminal 1 adjacent to boarding gate 15. OAK travelers will enjoy a selection of fashionable, seasonal and sports-themed apparel perfectly suited for last-minute gift ideas.

## **M** Elvis is in the Building, Blue Suede Shoes and All

Experience Elvis Presley's meteoric rise and the unprecedented mass hysteria he created through photographs and unique artifacts now on display in OAK's Terminal 2 connector. **Eye of the Storm** celebrates 50 years (1954-2004) of Elvis and rock n' roll by capturing a memorable point in this American original's life, vividly reported to have caused so many to break "from their seats, swept like a wave up to the stage."

When Elvis walked into the Memphis Recording Service on July 5, 1954, the idea that he would revolutionize music and leave a monumental imprint on society did not visit him as he approached the microphone. With the release of the uninhibited fruit of that session, SUN 209, his debut single, the whirlwind began, and Elvis stood center stage in a defining cultural change. No one had seen anything like him. A conservative America soon did an anxious double take, assured itself that this "delinquent" and his "deplorable" music would not last, and settled passionately into what one magazine called "The War of the Generations."

*(continued on next page)*

Elvis offered his dynamic, inventive style. He at once showered his fans and answered his critics through rare talent. Imaginations soared when his rich baritone struck from the turntable. When his voice echoed through a microphone, it competed with a spontaneous cascade of roof-lifting screams and anguished wails. Whether on stage, film, or television, boundaries disappeared.

Eye of the Storm, on display until January 5, 2005 in the connecting walkway between Terminals 1 and 2, is provided courtesy of OAK and the Oakland Museum of California.

## Master Plan Update

### Planning for the Future

Even though OAK just broke ground on its \$500 million Terminal Improvement Program (a component of the Airport Development Program or ADP) in April, the Port of Oakland has begun the planning process for new facilities and infrastructure to serve the needs of the traveling public and the air cargo industry five to 20 years from now. An estimated 18 million passengers and nearly a million tons of air cargo are expected to be handled by OAK by 2010, and some 30 million passengers and 1.5 million tons of air cargo by 2025.

The Port has assembled an advisory committee of approximately 40 stakeholders representing the community, general/corporate aviation, airlines, and Port of Oakland staff to provide input into the airport's master plan. The master plan is an element necessary to address requirements of the ADP settlement agreement with community groups and neighboring communities.

Over the next few months, the committee will look at existing land use and provide input on where new facilities could be located and what infrastructure changes should be considered. The first few meetings have educated members on forecasting techniques; how to determine passenger, air cargo and general aviation future needs; and methods to better understand which facility concepts work best under certain financial, physical and environmental constraints.

Once the committee finishes its input, the Port will prepare a draft master plan. There will be at least one meeting scheduled after the first of the year for the general public to provide feedback on master plan work to-date. The Port expects to complete OAK's master plan process in late 2005.

SCHEDULE CHANGES: To satisfy passenger demand, airlines may change flight schedules on short notice. A single flight may have more than one correct flight number or departure frame within a month. Weather or mechanical delays can also cause last-minute differences. In order to keep our timetable to a manageable size and still provide a comprehensive listing of available flights, it is sometimes necessary to represent two or three schedule changes for the same flight with a single flight number and departure time. If you use the Travel Planner as a reference when calling for reservations, we recommend that you request your flights by date and time not flight number. In this way, the travel agent or airlines can quickly determine the best flight and fare to suit your needs. A final note-please reconfirm your reservations 24 hours prior to departure to determine if you are affected by any last minute schedule changes. Thank you for flying Oakland!
