
Below is a list of contractors that several Oakland International Airport (OAK) tenants may have hired to perform work at their premises. Please remember to confirm with each contractor that they are currently badged at OAK. It is recommended that the tenant discuss the following with its OAK Airport Properties representative:

1. Before the tenant hires a currently OAK ID badged contractor, the tenant must obtain clearance from the Aviation Security Department ("AVSEC"). This AVSEC clearance may depend upon the work scope of the tenant's project and the name of the contractor's OAK ID badge authorized signer (AKA the badge sponsor).

2. If AVSEC clearance is denied, then the tenant may discuss the following options with its contractor:

a. Contractor may follow the I.D. badging process.

For more info, click this hyperlink: [OAK ID Badging Office](#)

b. Tenant or contractor may hire security guard escorts. The required number of guard escorts will depend on the work scope. Individuals to be escorted must first pass the Aviation Security Department's Security Escort Clearance Check before they are allowed to be escorted. Contact your OAK representative for further details.

c. Security Guard Escort Services

The Oakland International Airport's approved security guard services firm is HSS, Inc.

For security guard escort service contact:

oaksecurity@hss-us.com

Program Manager
