Examples of Identification Accepted by the OAK ID Badging Office
(Also Reference the OAK I-9 Form)

The Oakland International Airport ID Badging Office requires that every time someone comes to the ID Badging Office for a service, they bring 2 forms of identification. The ID Badging Office will only accept identification that is issued by the government, is unexpired, has identical spelling of the ID holder’s name, and is identified on the OAK I-9 form. For questions regarding acceptable documents please speak with your authorized signer. If your authorized signer cannot resolve the question, contact the OAK ID Badging Office at oakidbadging@portoakland.com or (510) 563-2867.

The most common problem regarding IDs is inconsistencies with middle names. For IDs to be accepted by the ID Badging Office, names must be identical, including whether the middle name is spelled out or just an initial. Acceptable documents will have either just the initial on both IDs or the middle name completely spelled out on both IDs. Please refer to the examples below.
